

Certification and Accreditation Documentation
for the
SC Lattice QCD Computing Project Extension
(LQCD-ext)

Unique Project (Investment) Identifier: 019-20-01-21-02-1032-00

Operated at
Brookhaven National Laboratory
Fermi National Accelerator Laboratory
Thomas Jefferson National Accelerator Facility

for the
U.S. Department of Energy
Office of Science
Offices of High Energy and Nuclear Physics

Version 4.1

April 8, 2014

PREPARED BY:
Robert D. Kennedy, FNAL

CONCURRENCE:

William N. Boroski
LQCD Contractor Project Manager

April 9, 2014
Date

**LQCD-ext Certification and Accreditation Documentation
Change Log**

Revision No.	Description / Pages Affected	Effective Date
Revision 0.0	Entire document.	April 13, 2009
Revision 1.0	Added BNL ATO Extension	March 10, 2010
Revision 2.0	Added renewed BNL, FNAL, and TJNAF ATOs	April 24, 2011
Revision 3.0	Updates for FNAL and BNL Computer Security Controls	April 25, 2012
Revision 4.0	Entire document.	February 12, 2014
Revision 4.1	Add recently renewed FNAL ATO	April 8, 2014

1. SCOPE AND PURPOSE

This document contains Certification and Accreditation (C&A) documentation for the SC Lattice Quantum Chromodynamics Computing Project Extension (LQCD-ext). LQCD-ext project installs and operates clusters and special purpose machines at Brookhaven National Laboratory (BNL), Fermi National Accelerator Laboratory (FNAL), and Thomas Jefferson National Accelerator Facility (TJNAF). These systems are managed as parts of the enclaves maintained at each of the Laboratories and are governed by the corresponding rules of the Laboratories.

As of this date, C&A status at sites are given below:

- BNL: BNL is operating under a Computer Security Authority to Operate (ATO) document issued by the U.S. Department of Energy. This remains active until June 2014. A copy of BNL's DOE ATO cover letter is included in a later section.
- FNAL: FNAL is operating under a Computer Security Authority to Operate (ATO) document issued by the U.S. Department of Energy. A copy of FNAL's DOE ATO cover letter is included in a later section.
- TJNAF: TJNAF is operating under a Computer Security Authority to Operate (ATO) document issued by the U.S. Department of Energy. A copy of TJNAF's DOE ATO cover letter is included in a later section.

Complete sets of Computer Security documentation are maintained at the three operating sites and are available upon request.

Upton, New York 11973

JUN 20 2012

Dr. Samuel Aronson, Director
Brookhaven Science Associates, LLC
Brookhaven National Laboratory
Upton, New York 11973

Dear Dr. Aronson:

SUBJECT: APPROVAL OF BROOKHAVEN NATIONAL LABORATORY'S (BNL'S) NEW YORK CENTER FOR COMPUTATIONAL SCIENCE (NYCCS) LOW INFORMATION SYSTEM SECURITY PLAN (SSP)

The NYCCS SSP and supplemental documents have been reviewed by the Brookhaven Site Office (BHSO) and were found to satisfy all comments submitted. A new supercomputer has been added to NYCCS, referred to as Blue Gene/Q, thus requiring an Authority to Operate (ATO). BHSO grants NYCCS an ATO for two years to expire on June 30, 2014.

Brookhaven Science Associates will continue to identify vulnerabilities and mitigate risks identified in BNL's Plan of Action and Milestones and project documents in accordance with the schedule presented.

If you have any questions, please contact Jonathan Loh, of my staff, at extension 5408.

Sincerely,

A handwritten signature in cursive script that reads "M. Holland".

MAR 20 2014

Mr. Rob Roser, Acting
Chief Information Officer
Fermilab
P.O. Box 500
Batavia, IL 60510

Dear Mr. Roser:

**SUBJECT: ACCREDITATION OF FERMI NATIONAL ACCELERATOR LABORATORY
COMPUTER SECURITY ENCLAVES AND MAJOR APPLICATIONS –
AUTHORITY TO OPERATE**

In accordance with DOE Order 2005-18 and the Program Cyber Security Plan (PCSP) for the Office of Science, DOE has determined that Fermi National Accelerator Laboratory has established vigilant and effective oversight of its computer security and network operations for the General Computing Environment and the Open Science Environment. The Laboratory also underwent an extensive DOE Office of Inspector General audit in 2013, which resulted in only four findings of minor significance. I hereby grant an Authority to Operate (ATO) for these systems as the Authorizing Official, based on the results of satisfactory performance demonstrated through continuous monitoring data under the Contractor Assurance System since May of 2012 and positive results of the recent audit.

DOE will continue to work with your team to coordinate activities that provide robust continuous monitoring of the Cyber Security Program. The Laboratory is expected to continue monitoring of computer security and network operations and report any incidents in accordance with the PCSP. DOE will routinely evaluate system performance, follow-up on any security-significant events and re-evaluate ATO status as appropriate in accordance with the PCSP.

If you have any questions concerning this correspondence, please call Whitney Begner, of my staff, at (830) 840-5743.

Sincerely,

Michael J. Weis
Site Manager

J. Chang, Fermilab
I. Gaines, Fermilab
F. Healy, DOE-CH

*This ATO includes the Lattice
Booke Systems*

4. DOE ATO COVER PAGE for Thomas Jefferson National Accelerator Facility

Department of Energy
Thomas Jefferson Site Office
12000 Jefferson Avenue, Suite 14
Newport News, Virginia 23606

January 23, 2014

Mr. Michael D. Dallas
Chief Operating Officer
Thomas Jefferson National Accelerator Facility
12000 Jefferson Avenue
Newport News, VA 23606

Dear Mr. Dallas:

ACCREDITATION DECISION LETTER (GRANTING AN AUTHORITY TO OPERATE)

Jefferson Science Associates has completed the certification of the cyber security programs for its ten computing enclaves in accordance with Department of Energy (DOE) and Office of Science direction and guidance. The cyber security threats and risks have been analyzed, plans developed, and controls implemented to mitigate risks to an acceptable level.

After reviewing the certification documents, Plans of Action and Milestones, and results of all the internal and external assessments, I have determined that the residual risk to the agency's information and information systems is acceptable, and information systems are authorized to function in the existing operating environment.

DOE hereby grants Thomas Jefferson National Accelerator Facility (TJNAF) the ability to operate its ten computing enclaves. I am extending your capability with a full authority to operate without any significant restrictions or limitations. Continuous monitoring is a living process that must be maintained and its results transparent. Therefore, evaluation will proceed with the formal acceptance of annual site risk submissions, in conjunction with the efforts of the Continuous Monitoring Program.

The accreditation will remain in effect subject to the following conditions:

1. TJNAF will continue to mitigate vulnerabilities and risks identified in its Plans of Action and Milestones in accordance with the schedule presented.
2. TJNAF will continuously monitor its cyber security posture. Threats and vulnerabilities identified and reported during the continuous monitoring process must be mitigated promptly or be addressed by new items posted in the Plans of Actions and Milestones.
3. TJNAF will inform the Authorizing Official (AO) of any significant changes in the Laboratory's risk posture or in the structure of the program to allow a determination of the continuing authority to operate. If a significant change to an enclave(s) occurs, a new risk assessment for applicable enclave(s) will be submitted to the AO for determination of continued operation.

Mr. Michal D. Dallas
